Subject: RE: Leviathan Mine - Supplemental 2017 Monitoring for Groundwater/Surface Water Interaction Investigation near Acidic Pond and Leviathan Creek

Josh – According to Amec, the only other plan-in-progress that still needs to be submitted for 2017 field activities is for the Former Isbell Camp Area Hydrocarbon Investigation (On-Property Amendment No. 12, Supplement No. 1), which ARC plans to submit on Monday.

Subject: FW: Leviathan Mine - Supplemental 2017 Monitoring for Groundwater/Surface Water Interaction Investigation near Acidic Pond and Leviathan Creek

Josh – I misspoke. It looks like the plan for supplemental monitoring activities near the Acidic Pond went to EPA on April 19. I'm checking to see what other plans still need to be submitted.

Subject: Leviathan Mine - Supplemental 2017 Monitoring for Groundwater/Surface Water Interaction Investigation near Acidic Pond and Leviathan Creek

Lynda,

On behalf of Atlantic Richfield, Amec Foster Wheeler is submitting the Supplemental 2017 Monitoring for Groundwater/Surface Water Interaction Investigation near Acidic Pond and Leviathan Creek for the Leviathan Mine Site in Alpine County, California. A hardcopy will follow.

If you have any questions or comments please contact Tony Brown at (657) 529-4537 or anthony.brown@bp.com.

Thanks,

Marc
